Professional Summary

Enthusiastic Full Stack Developer and lifelong learner with skills in JavaScript, React, Nest.js, Node.js, MongoDB, and MySQL. Proficient in both front-end and back-end development, I am passionate about building dynamic, user-centric applications. Eager to leverage my expertise to create high-quality solutions and contribute effectively to organizational goals.

Work Experience

Full Stack Developer - ChainCode Consulting LLP

Chandigarh, India

Jan 2024 - present

- Developed the feedback module for IRCTC Tejas-NFTtrace, enhancing user engagement and data collection
- Integrated Firebase into the Sutr project, enhancing real-time data synchronization and authentication.
- Played a crucial role in the NFTtrace mobile app admin dashboard project, developing the Support and Offer modules for both frontend and backend
- Developed the frontend for the Wild Wheat Bakery website, enhancing user experience and interface.
- Resolved complex bugs in the Obortech project, enhancing system stability and performance through detailed debugging.

Project

My Glow | 🔗

Developed a beauty product website for ordering cosmetics using HTML, CSS, JavaScript, React, Redux, and Chakra UI.
