📍 *Chhattisgarh, India*

Full Stack Developer skilled in building scalable applications with JavaScript, React.js, Next.js, Node.js, and NestJS. Experienced in real-time systems, API development, and integrating LLMs for AI solutions. Passionate about creating user-friendly applications and continuously learning new technologies.

Experience

Software Developer Engineer I - Genboot Private Ltd. *Oct-2024 - Present*

Sydkik : Solely responsible for developing the Admin Panel for Sydkik, covering frontend, backend, and client handling. Developed critical modules such as user management, subscription view, escalation inbox with real-time notifications for task escalations, event logs, and customer support integration with HelpScout for efficient issue resolution and user management.

Klaviss : As a Full Stack Developer, I contributed to both frontend and backend development, playing a key role in Klaviss, a US-based real estate platform. Key responsibilities included optimizing the property listing flow, integrating LLMs like Gemini and OpenAI, and creating prompts for extracting data from PDFs. I also resolved critical issues, fixed bugs, and enhanced user experience through UI improvements.

GenHR : For GenHR, an internal HRMS tool, I engineered the frontend using React.js and Tailwind CSS, while integrating Firebase Authentication for secure login. I designed and implemented RESTful APIs with Node.js, optimized performance with Redis, and secured the app using JWT for role-based access control. Adhering to Agile methodologies, I ensured seamless project delivery.

Full Stack Developer - ChainCode Consulting LLP *Jan 2024 - Oct 2024*

NftTrace Tejas : Collaborated with IRCTC on this project, responsible for developing the feedback and offers modules, while identifying and resolving critical bugs to enhance overall system stability and performance.

Wild Wheat Bakery : I worked on the frontend development of a US-based bakery shop website from start to finish. I implemented various sections, including the gift card section, customer section, contact page, menu, order catering, and the UI for the payment section, ensuring a seamless and visually appealing user experience.

Technical Skills

Frontend: JavaScript, React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS, Material-UI

State Management: Redux, Context API, React Query, Zustand

Backend: Node.js, Nest.js, Express.js

Database: PostgreSQL, MongoDB

DevOps & Tools: Git, GitHub, Docker, Vercel, Postman, ESLint, Prettier

Soft Skills: Collaboration, Observation, Adaptability, Leadership

Education

Full Stack Development (Full Time), Masai School, Bengaluru   *Aug 2022 - Oct 2023*

Bachelor of Technology (EEE), IES College of Technology, Bhopal   *2018-2022*

Achievement

Employee of the month, ChainCode Consulting LLP   Jul 2024

Communication skills, TCS iON   Sep 2020
