CAREER PROFILE

Full Stack Developer with 2+ years of experience building scalable, high-performance web applications using React.js, Next.js, Node.js, and NestJS. Experienced in designing RESTful APIs, implementing real-time systems, and integrating LLM-based solutions. Proven ability to optimize performance, enhance user experience, and deliver secure, production-ready applications with clean architecture and efficient database design.

WORK EXPERIENCE

GENBOOT PRIVATE LTD, Mohali (Software Engineer, Full Stack)

Oct 2024 – Present

Sydkik – AI Assistant App

- Owned the development of the admin dashboard and analytics module end-to-end.
- Integrated RevenueCat for real-time in-app purchase management, ensuring reliable subscription handling.
- Connected HelpScout to streamline customer support operations and improve response workflows.
- Established role-based access control (RBAC) to secure administrative actions.
- Built real-time notifications and chat system enabling seamless communication between users and admins.

Ylore – A Travel App

- Managed a team of 4 developers, overseeing full-stack development across frontend and backend.
- Implemented complete authentication flow using Firebase across frontend and backend.
- Integrated Mapbox for real-time location tracking and route visualization.
- Automated deployments using GitHub Actions CI/CD pipelines, reducing manual errors and improving release efficiency.
- Developed TOTP-based 2FA system for admin portal using QR-based authenticator integration.

Klaviss – Real Estate Transaction Platform

- Contributed to a microservices-based real estate transaction platform architecture.
- Leveraged LLM APIs (OpenAI, Gemini, Claude) with structured prompt pipelines.
- Used LLMs to extract property data from purchase agreement PDFs.
- Enhanced Compliance Officer chat module for real-time document assistance.

CHAINCODE CONSULTING LLP, Chandigarh (Jr. Full Stack Developer)

Jan 2024 – Oct 2024

IRCTC Tejas

- Engineered GPS-based passenger check-in system for train journeys.
- Validated passenger location to ensure presence during travel.
- Delivered end-to-end feedback module across frontend and backend systems.
- Eliminated critical defects identified during testing cycles.

Wild Wheat Bakery – E-commerce Platform (Frontend)

- Crafted responsive user interfaces using NextJS and Tailwind CSS.
- Structured reusable component library to improve scalability.
- Rendered dynamic product listings and detail views efficiently.
- Improved performance through code optimization and efficient state management

TECHNICAL SKILLS

Frontend – React.js, Next.js, TypeScript, JavaScript, Redux, Zustand, HTML5, CSS3, Tailwind CSS

Backend – Node.js, NestJS, Express.js,

Database – PostgreSQL, MySQL, MongoDB

Cloud & Tools – AWS, CI/CD, GitHub Actions, Git, Postman

Others – OpenAI SDK, Rest APIs, Microservices, WebSockets

EDUCATION

B.Tech (EEE) IES College of Technology, Bhopal	2018 – 2022
Full Stack MERN Developer(Full Time) Masai School, Bengaluru	2022 – 2023
